

Faculty Position in Developmental Biology and Regenerative Medicine - University of Washington School of Medicine

The Center for Developmental Biology and Regenerative Medicine in the Seattle Children's Research Institute and Department of Pediatrics at the University of Washington School of Medicine seeks an outstanding scientist to be appointed full-time, with preference given to candidates for appointment at the Associate or Professor level. Applicants should possess Ph.D., M.D., or M.D./Ph.D. degrees. Areas of interest are broad; these include human genetics, model organism genetics (especially zebrafish), stem cells and regeneration, computational biology, and systems level analyses of pathways involved in disease and development. The successful applicant will enjoy a competitive start-up package, and excellent space and state-of-the-art facilities in the Research Institute, which is near the University of Washington South Lake Union Campus, the Fred Hutchinson Cancer Research Center, and the Allen Brain and Cell Biology Institutes. She or he will be appointed as faculty at the University of Washington, with a potential affiliation with the Brotman Baty Institute for Precision Medicine, and will be part of a growing Center with diverse interests and expertise.

Please send a CV, a 2-3 page description of research interests and plans, and contact information for 3 letters of recommendation to:

David Beier, M.D. Ph.D.
