Postdoc position in cilia and ciliopathies at Yale

The Sun lab at Yale University School of Medicine has a postdoctoral position open. Our research is focused on the function of cilia and the etiology of ciliopathies, particularly PKD. A more detailed description can be found at:

https://medicine.yale.edu/genetics/profile/zhaoxia_sun/

Yale University provides a dynamic interdisciplinary environment. The candidate is expected to work with both zebrafish and mouse models. We are seeking an individual who is proficient in molecular biology, highly motivated, with collaborative spirit and ready to explore all the opportunities available in our research community.

Interested applicants should email a cover letter, CV and names and contact information of three references to:

Zhaoxia Sun, Ph.D.
Associate Professor
Co-Director of Graduate Studies
Department of Genetics
Yale University School of Medicine
333 Cedar ST., SHM I-329A
New Haven, CT 06520-8005
